NOTICE

WASTE LANDS AVAILABLE FOR PLANTERS IN THE TAVOY DISTRICT.

WASTE LANDS, covered at present with forest, bamboos, or grass, are available for plantations of coffee, tea, cinchona, or spices at altitudes varying from 100 feet to 6,500 feet above the sea in the Tavoy district. This region is between the 13th and 14th parallels of north latitude, and the rainfall ranges from 190 to 220 inches a year. The lands are mostly within 30 to 50 miles of the steamer station of Thayetchoung on the Tavoy river. Mail steamers ply between Thayetchoung and Moulmein or Rangoon once a week inwards and outwards.

II.—Grants of land in lots ranging from 100 to 1,200 acres can be had for planting tea, coffee, cinchona, or spices on application of the Deputy Commissioner of Tavoy. Such grants will be made in accordance with the "Burma Land and Revenue Act, 1876," and with the rules sanctioned thereunder by the Governor-General of India in Council. Copies of the Act and rules can be obtained by intending planters on application to the Deputy Commissioner of Tavoy, the Commissioner of Tenasserim at Moulmein, or the Secretariat, Rangoon.

III.—In addition to the concessions and conditions laid down in the Act and rules, the following special concessions will be made to persons taking up land for plantations of coffee, tea, cinchona, or spices, in Tavoy, namely.—

(1) A grantee must bring under cultivation one-third of his grant within 12 years from the date of his obtaining the grant. If, after the expiration of 12 years, any surplus uncultivated land, in excess of two acres of waste for each acre of cultivated land, shall remain on the grant, such surplus waste shall then revert to Government; and the grantee shall have no further claim or right in the surplus which has so reverted.

(2) A grantee will not be liable to pay any land revenue or any price for the land of his grant until the end of the tenth year after he enters on possession, provided that he takes *bonâ fide* steps to cultivate a reasonable proportion of the grant with coffee, tea, cinchona, or spices. In the event of any grantee desiring a more precise definition of a "reasonable proportion," the Chief Commissioner may decide beforehand in each case what proportion of the grant ought to be thus cultivated in each year.

(3) After the end of the tenth year the grantee will be liable to pay land revenue at the rate of Rs. 1-4-0 per acre and cesses at the rate of two annas per acre on one-third of his grant up to the year 1900 A. D.; after the expiration of such year he will be liable to pay for one-third of his grant the same revenue rate as is paid for garden lands in the nearest revenue circle where a garden rate obtains.

(4) A grantee will not be called upon to pay anything for timber, bamboos, or grass which he may cut upon his grant, provided he takes *bonâ fide* steps as aforesaid to cultivate coffee, tea, cinchona, or spices.

IV.—The only payment which a grantee will have to make on receiving his grant will be eight annas an acre for the cost of survey and demarcation. In consideration of such payment the Deputy Commissioner will cause a survey to be made of the grant, will furnish the grantee with a copy of such survey, and will cause boundary marks to be erected at suitable points in the outer boundary of the grant.

V.—The wishes of applicants will be met, as far as possible, in regard to the situation and shape of their grants. But ordinarily—

(a) no grant will be given where the Forest Department intend to make a forest reserve;

(b) no grant will be given on such a place as will unduly circumscribe the extension of cultivation of the grazing-grounds of any neighbouring village or hamlet;

(c) grants facing a road or navigable stream will have to be of a depth double the length facing such road or navigable stream;

(d) small strips will be reserved leading to landing places for the benefit of neighbouring villages and grantees.

VI. The Government is now spending much larger sums than heretofore on roads in the Tavoy district. If planters settle in the district, further funds will be allotted for roads from their neighbourhood to the steamer station at either Tavoy or Thayetchoung.

VII.—In order to encourage pioneers in the coffee and cinchona enterprise in Tavoy, the Government will pay to the first four grantees who begin *bonâ fide* planting operations Rs. 15 per head for every Indian or Chinese (coolie, male or female, over 16 years of age, who may be settled and housed on their plantations before the 1st March 1883.

VIII.—In any case of doubt regarding the *bonâ fide* character of operations for the purposes of concessions III and VII, the Deputy Commissioner will decide, and his decision will be subject to appeal to the Commissioner of Tenasserim, whose decision will be final.

IX.—All minerals and metals under and within the lands granted under these rules are reserved by Government, together with the right to enter upon and resume such portion of land as may be necessary for examining or working mines upon payment of just compensation to the grantee for loss of, or injury done to, the surface.

POSITIVE GOVERNMENT SECURITY LIFE ASSURANCE CO., Ld.

BONUS TO 31st DECEMBER, 1882.

THE Quinquennial Valuation of the Company's policies as at 31st December, 1881, has been made, and from the Actuary's report it will be seen that the available surplus in the Life Fund amounts to £25,883 18s. 10d.

This surplus will be disposed of as follows:—

By setting aside £4,905 6s. 4d. as a Reserve Fund, in accordance with Clause 131 of the Articles of Association.

By dividing the remaining £20,180. 12s. 6d., in accordance with Clause 129 of the Articles of Association, in the proportion of 4-5ths to Policy-holders and 1-5th to Shareholders. The Policy-holders' proportion, amounting to £16,144. 10s., will suffice to make Reversionary Bonus Additions to all Participating Policies and all Positive Notes on lapsed Participating Policies in existence on 31st December, 1881, of 11s. per £100 to the sum assured for each year during which the said Policies or Positive Notes shall have been in force. The Shareholders' proportion of £4,036. 2s. 6d. will suffice, with the addition of £130. 7s. 6d. taken from the balance standing to credit of Profit and Loss Account, to pay a 5 per cent. dividend upon the Share Capital of the Company.

BONUS CERTIFICATES FOR INDIA ARE EXPECTED TO ARRIVE ON OR ABOUT THE 31ST JULY, 1882.

AUSTRALIAN WINES.

A CONSIDERABLE business has been done this last month, a steady increase taking place in the consumption. An interesting and important trial of Australian Claret took place at the Scott's Hotel, where a company of experts and others met for the purpose of comparing them with the best French Claret. The Wines were those usually sold at the hotel, and after carefully comparing them it was found that over TWO TO ONE WERE IN FAVOUR OF THE AUSTRALIAN WINE which is sold at one-third of the price of the French Wine. We should mention that the judges did not know until after the trial which was Australian and which French, though the latter was the best that could be had and the Australian Caldwell & Co.'s No. 1 Claret.—*Australasian Trade Review*, April 12, 1882.

The above excellent Wine is on sale at the godowns of the undersigned.

Bombay Bottled	Rs. 18 per doz. qrts.
Australian Bottled	Rs. 20 do. do.

COMMERCIAL INTELLIGENCE

THURSDAY EVENING, JULY 6.

THE tenor of the telegrams regarding Egypt to-day have had a very decided effect in commercial circles. The probability of a stoppage of the Suez Canal traffic, instead of being regarded as a remote contingency, is now looked upon as more than likely, and the result is that very little in the shape of new business has been done. The contracts already made will necessarily have to be completed, but otherwise no fresh transactions are being entered upon, and unless we have something definite before long, there is every appearance of business coming to a deadlock.

No actual tenders, so far as we know, have yet been invited for tonnage for the conveyance of an expedition from this side, but it is well understood that tonnage will be wanted, and consignees of steamers are working accordingly.

Yesterday's telegrams from London report no change whatever in the stock markets, and Seeds and Wheat are also reported unaltered.

Cotton in Liverpool continues firm, the sales yesterday being estimated at 12,000 bales, of which 3,500 were Surats. On the spot prices remain unaltered, but to arrive Bombay descriptions are again quoted 1-32 higher, with every appearance of even a further advance, now that supplies from this side are practically at an end. The Egyptian difficulty is, no doubt, an adverse feature as regards demand, but, on the other hand, must be placed the possibility of the next Egyptian crop proving almost a failure.

From New York we have no new quotations, the holidays being still on there yesterday.

EXCHANGE.—To-day's telegrams bring us advices of further shipments of Silver to the extent of 14 lakhs, and this, coupled with the fact that at 1s. 8d. Government have only been able to place 3 lakhs of their weekly drawings, affords very strong proof of the weakness of the general position. No lower rates have been current for Private Paper, but the tendency throughout has been weak, and demand bills have changed hands at 1-32 under yesterday's quotations. We now quote :—

Bank Bills on demand	..1s. 7 15-16d.	per rupee.
Do. Telegraphic	..1s. 7 29-32d.	"
Do. 3 months' sight	..1s. 8 1-16d.	"
Credits 3 months' sight	..1s. 8 3-16d.	"
Documents 3 months' sight	..1s. 8 3-16 to 7-32d.	"
Francs 3 "	2-13	"

On Calcutta we still quote demand at par, 60 days' sight at ½ per cent. discount.

GOVERNMENT PAPER to-day has been very quiet. Nominally values are unchanged, and we still quote Fours at Rs. 100⅜ to 11 16 ; Fours-and-a-half, Rs. 107¼ to Rs. 108. These figures, however, are to a great extent nominal, as buyers hold aloof pending the present unsettled state of things in connection with Egypt.

SHARES still keep quiet, with no important movement either way. The market is quite devoid of speculation for the time being, and until the Egyptian question takes a decided turn one way or other we are not likely to see much alteration.

COTTON has again been quite a blank day as regards export business. Prices are nominally unchanged, but after all prices all round are only nominal, there being very little in the shape of decent Cotton available.

SEEDS and WHEAT are steady at unaltered prices.

FREIGHTS are dull so far as ready shipment is concerned, and for Liverpool 22s. 6d. is still available for Wheat, and previous figures for other ports. There is little offering, however, in the shape of forward tonnage, and Cape freights are practically at an end, the only Liverpool ship on the berth being full.

IMPORTS are unaltered as regards Piece-goods, but Coals are quite excited. Sellers have quite withdrawn either for forward or ready, and it is difficult to give quotations.

MESSRS. C. MARCKS & CO.,

JEWELLERS AND OPTICIANS,

2, RAMPART ROW, BOMBAY,

RESPECTFULLY announce to the public that they have TAKEN OVER the entire STOCK of OPTICAL GOODS of Dr. A. MENIST, the well-known Oculist Optician, as well as his numerous and invaluable instruments to suit the eyesight.

The superiority of Dr. Menist's Pebbles and Frames is well known throughout India, and his practice of upwards of forty years, combined with a thorough knowledge of the theory of his profession, have given him the skill required to detect the peculiarities of vision, and then to provide the proper glasses to remedy them.

Dr. Menist's pamphlet may be had free on application at Messrs. MARCKS and Co. It contains numerous testimonials to his successful treatment, many of which have been previously in the hands of other Oculists, who had, however, failed to suit the eyesight

Outstation orders punctually attended to.
Test-types sent on application.

THE Poona Regatta this year is to be held on the last three days of August. We suppose Bombay will send up a crew.

THE directors of the Bank of Bengal yesterday declared a dividend for the past half-year at the rate of 10 per cent. per annum. The net profits for the half-year, we understand, were at the rate of 15½ per cent. per annum, and after setting aside 10 lakhs for the above dividend, the directors added 3 lakhs to Reserve Fund and Rs. 60,000 to Pension Fund, and carried forward a balance of Rs. 2,16,049.

MESSRS. KEMP AND CO.'s shares, which were allotted only three days since, are already at a high premium. Actual transactions were made yesterday in which a premium of Rs. 40 was paid on shares which had only Rs. 50 paid up. Messrs. Soundy and Co., recently converted into a "Limited," are, we hear, about to declare a dividend for the first year of 14 per cent.

AFTER a trial extending over six days, Sadashee Narayen Bhide, *alias* Nana Bhide, and Keshee Narayen Bakhle were unanimously convicted yesterday, at the Criminal Sessions, in what is known as the first of the Kolhapore Defamation Cases. The special jury found the first prisoner guilty of all the charges that were not withdrawn by the prosecution, namely, that of defaming Rao Bahadoor Mahadeo Wasudeo Barve, C. I. E., by publishing a telegram in Bombay, and two petitions to the Bombay Government; and the second prisoner guilty of the charges in reference to the two petitions. The jury considered that the second was a mere tool in the hands of the first prisoner. His Lordship reserved sentence until the result of the trial of other similar cases is arrived at.

RULES of procedure and practice for the Bombay Small Cause Court, framed by the Judges of the Court under the Act, are published in yesterday's *Bombay Government Gazette*.

THE Bombay death-rate during the week ended July 4 was 21·85. The city continues free from cholera, though the average recorded mortality from this disease at this season of the year is high, we mean for the corresponding weeks of the last five years being 51 deaths. There were only 52 deaths last week from the most destructive disease known in Bombay, remittent fever, as compared to 103 in the corresponding week of last year, and a mean of 147 for the first week in July during the last five years. The number of births in last week was 319, as compared with a mean for the preceding five years of 279.

THE district reports up to June 30 give the following cholera statistics. Deaths in the last week of June, in the Ahmedabad District, 86; in Satara, 28; Thana (Panvel and Karjat), 18; Wadhwan, 16; Belgaum, 11; Ahmednagar (Parner taluka only), 4. In addition, it is reported from Kaladgi that there is "slight cholera in Bijapur and Bagalkot;" from Rajkot, "cholera in some places in Halar and Sorath;" and from Baroda, "slight cholera in Kadi division."

WE hear through the Press Commissioner's office that a large number of pilgrims *en route* to Mecca from Samarkhand, Khokhand, and Andejan recently arrived at Kabul. The Amir's post leaves Kabul for Peshawur on Tuesdays and Fridays, and reaches Kabul from Peshawur on Mondays and Thursdays.

THE traffic road between Ladakh and Kashmir is reported open for the season.

AN extraordinary fall of rain occurred on the 18th of June at Derapur, in the Cawnpore district, no less than 20 inches having fallen in the 24 hours. It is noteworthy that the mean annual rainfall of Derapur is only 27·46 inches.

WITH reference to the evidence given by Colonel Holroyd before the Punjab provincial committee of the Education Commission on Saturday, it is stated that memorials signed by over forty thousand *bonâ fide* names have been sent in to the Education Commission, protesting against the management of the Education Department in the Punjab.

IT having been decided to abandon Bhagalpur as a military station, the 16th Native Infantry marched out at the end of last month, and the cantonments are now empty.

THE only disestablished commandant of the Punjab Frontier Force at present in this country has been provided for by being appointed commandant of the 3rd Sikhs, vacant by the resignation of Lieutenant-Colonel G. Money, C. B Lieutenant-Colonel P. C. Rynd will be called upon to vacate the command next April, thus giving the authorities the opportunity of promoting Lieutenant-Colonel C. J. Griffiths, the present 2nd-in-command, 3rd Sikhs, who has been nearly 17 years with the regiment.

FEARS were at one time entertained as to the ate of the s. s. Tennasserim, which left Rangoon on the 15th of May with a number of passengers bound to London; but she has turned up at Suez all right, after taking 30 days to get there.

THE Trade and Navigation Returns for April of this year are specially interesting as being those for the first month after the great reduction, or partial abolition, of customs took place. The gross amount of import duties, including salt, fell from about 30 lakhs in each of the two previous years (1880-81) to about 15 lakhs; and, excluding salt, from nearly 15 lakhs to nearly 4 lakhs. With regard to the customs duties, in 1881, they were charged under fifty-three separate heads of items, whereas in the present year they are only charged under eight heads, and two of these are for insignificant amounts, only aggregating Rs. 100 between them. In point of fact, the only customs on imports now charged are on salt and liquors, with a small sum on arms and ammunition.

THE coming into force of the New Small Cause Court Act has caused a check in the business of the Calcutta Court. The Act came into operation on the 1st. inst. On that day no plaint was filed; and on the 3rd inst. there were only six suits instituted. The previous week, under the old Act, the average number of suits instituted daily was 167. The *Indian Daily News* says in explanation:—"It is not that people will not resort to the Court, but that the Court is changed; it is more expensive, and it involves personal attendance, instead of attendance by agent as heretofore. Merchants and others have something else to do than dance attendance in the Small Cause Court even at the bidding of Mr. W. Stokes. It is curious that, with the new changes, the public should so soon discover how much the Court has become an inconvenience. The matter is one which should attract attention in high quarters.'

THE commander of a large passenger steamer just arrived in India, after a rapid passage from Suez, assures a correspondent of the *Pioneer* that during his vessel's passage from Port Said to Suez through the Canal everything was perfectly quiet and tranquil. At Port Said there were one English, two French, and one Turkish gunboat, very small, insignificant [illegible]ck at, but just the stamp of craft to [illegible]nks of the Canal itself, as well as [illegible]es. At Port Said there was no excitement, less so [illegible]ny rate than is visible in an Indian bazaar. At Ismailia all was quiet, and there were no signs of either bumptious Egyptian troops or marauding Arabs. At Suez the same order of things as had been observed at Ismailia and Port Said was again reported.

THE ship Braemar Castle, which was sunk some time since in Penang harbour and has formed an awkward obstruction, was recently blown up with Noble's Explosives. A local paper thus describes the operation:

"Two charges consisting of 500 lbs. each were lowered down the hollow shells of the main and foremasts, and a barrel containing 300 lbs. of dynamite and 200 lbs. of blasting gelatine was placed in position on the port side of the vessel. . . . The charges in the cask and down the mainmast went off all right, but the one down the foremast did not, and it was discovered afterwards that the wire connecting it with the battery had been broken, evidently by one of the boats which had crossed it just before the charges were fired. All that could be seen as to the effect of the discharge at the time was that a large body of mud and water was raised some fifty or sixty feet in the air accompanied by a sound like the very distant boom of a cannon. . . . Divers who went down to survey the wreck the next morning reported that the whole of the vessel between the fore and mainmasts had been pretty well levelled; a portion of the forecastle, which was 126 feet ahead of the foremast, was left standing, as well as all abaft the mainmast. At noon to-day the battery on shore having been connected again with the charge down the mainmast, another explosion was effected, and apparently with great results, as the volume of water, as well as the wreckage floating about, was much greater than on the previous occasion. An enormous number of fish fell to the nets of the innumerable sampan men who went out to secure the spoils; one monster, weighing no less than 236 lbs., being among the prizes. Until divers have gone down it will be impossible to say what the results of the final blasting operations may be."

SAYS the *Straits Times*:—The Spanish Government appears to have taken a favourable view of the action of the Spanish Consul here, and the captain of the steamer, in regard to the case of the engineers of the Leon XIII., inasmuch as the decoration of the Grand Cross of Naval Merit has been bestowed upon Senor Baldasano y Topete and Captain Riquer or Visgueard. A British official or subject who had acted similarly in a Spanish port, and set the Court at defiance, would doubtless have fared very differently at the hands of his own Government.

AN Australian correspondent writes from Adelaide:—"The distance between here and London appears to be shortening rapidly. The Liguria one of the Orient Company's boats, delivered letters the other day which were dated in London only thirty-one days back. It is not long since that forty days was quick travelling for a letter."

THE *Queen* publishes some curious correspondence occasionally. A few weeks back a charitable inquirer, wishing to assist the poor Indian women, asked for patterns of baby-linen of the style in use among the natives of India.

A FRENCH photographer residing at Tangiers has received a most interesting order from the Sultan of Morocco. He is commissioned by His Highness to photograph the 364 wives of this modern Solomon. The portraits will be contained in an album, of which the Sultan alone will have a key. If the photographer could only manage to strike off some duplicates from the negatives they would, *Truth* thinks, command a considerable sale.

MR. GLADSTONE'S private secretary has sent the following reply to a communication addressed to him by the British and Foreign Anti-Slavery Society, in which it is suggested that in the event of a Conference or Congress of the Powers upon the settlement of their relations with Turkey and Egypt instructions may be given to the representatives of England that they will insist that the abolition of the slave trade be an integral part of any such settlement:—"I am directed by Mr. Gladstone to acquaint you that he is in receipt of the letter addressed to him by the British and Foreign Anti-Slavery Society, in which it is urged that the abolition of the slave trade in Turkey and Egypt may form part of the settlement of the Egyptian question. In reply, he desires me to say that this most important point raised by the society would certainly not be within the scope of the proposed Conference, and that he has the gravest doubts whether its conclusions would be feasible."

Holloway's Ointment and Pills.—Common sense, over the best of all learning, becomes invaluable when its practice will renovate broken health and reinstate soundness, strength, and vigour. Summer is the season for removing coughs, shortness of breath, wheezing, asthma, and all pulmonary diseases inflicted on the delicate and careless by our rigorous winters, and Holloway's remedies are the means of effecting a happy transition from danger to safety. After the harassed chest has been fomented with sea-water or weak brine, and dried, this Ointment should be well rubbed into the skin, both in front and behind, between the blade-bones. Holloway's Pills should be taken to correct any functional irregularity; they will make each organ conform to health's requirements.

THE SOUTH-WEST MONSOON.

TELEGRAPHIC WEATHER REPORTS.

SIMLA, June 5.—Rain has now penetrated to the Western Punjab, bringing down the temperature to below 90° in all the reporting stations in the province. The barometer consequently has risen greatly under the hills, but less elsewhere in the Punjab and N.-W. P. In the remainder of India the barometer is low and steady; cloud and rain prevail throughout Northern and Western India, especially in the Eastern Punjab and the neighbouring districts of the N.-W. P. The monsoon is strong at Surat. The rainfall to-day at Delhi was 5·7 inches; at Goa and Mangalore above three inches; Ludhiana, Roorkee, Meerut, Surat, Belgaum, Mercara, and Akyab two to three inches; Jullunder, Simla, Chakrata, Aboo, Deesa, and Bombay one to two inches; Mooltan, Dera Ismail Khan, Mussoorie, Bareilly, Agra, Darjiling, Gya, Burdwan, Dacca, Indore, and Rajkot half to one inch. On the previous day at Naini Tal the rainfall was above three inches; Umballa and Cawnpore one to two inches. Small falls are reported also at Jhansi, Morar, and Gooty.

THE Floods in Travancore.—It is highly satisfactory to learn that His Highness the Maharajah was pleased to command Dewan Ramiengar to visit Tiruvellah, Cottayarm, and the adjacent places in Northern Travancore, and to personally inquire into the damages and losses sustained by the people of those parts lately by the floods; and that the Dewan left the capital accordingly on Thursday last, the 29th instant, at 4 a. m., and is, we presume, quite busy now in the scene of disaster. The Dewan has been authorised to render pecuniary aid to the needy and destitute, and a circular has been issued to all the Talsildars and Proverthicars to find out the owners of timber found floating and to return the same to them. It ought indeed to be some consolation to the people that the Government have a due sense of the misfortune that has befallen them.—*Madras Mail.*

THE POLICE ZOOLUM CASE.

AT the Fort Police Court yesterday, Mr. Craigie, of Messrs. Cragie, Lynch, and Owen, appeared before Mr. W. Webb and applied for a written sanction to prosecute Withoba Babajee, a policeman, on a charge of perjury; in the meantime he tendered a written information against the accused.

The magistrate said he had not the slightest objection to give the sanction, but he could not enter into the merits of the case himself, as the charge of perjury was alleged to have arisen from the case which was heard by him; however, he would consider the matter.

Mr. Craigie said he would not press that the case should be heard by his Worship; but if the written sanction were granted, he would make his application, probably the next morning, before Mr. Ryan for a summons against the accused.

The magistrate said the sanction would be drawn up in the usual form, and would be ready this (Friday) morning.

THIRD CRIMINAL SESSIONS.—JULY 6.

(Before the Hon'ble Mr. Justice LATHAM.)

THE KOLHAPORE DEFAMATION CASES.

SADASHEE NARAYEN BHIDE, *alias* Nana Bhide, and Keshee Narayen Bakhle were charged with defaming Rao Bahadoor Mahadeo Wassudeo Barve, C.I.E., the State Karbaree of Kolhapore. The trial was continued before his Lordship and the same special jury to-day, being the sixth day of the hearing. The Hon'ble Mr. Lang, Advocate-General, and Mr. Inverarity, instructed by Messrs. Hearn, Cleveland, and Little, appeared for the prosecution; and Messrs. Branson, Pherozeshaw Mehta, and K. T. Telang, instructed by Messrs. Shapurjee and Takurdas, for the defence.

His Lordship, in summing up the case to the jury, said that so long a time had elapsed since the trial began, that he would state to them what the charges were on which they would have to give a verdict. Three of the charges had been withdrawn by the prosecution, very properly in his Lordship's opinion; and with regard to them, the jury would bring in a verdict of not guilty. His Lordship briefly stated, in language that would be understood by laymen, the three charges that remained. The first of these charges was only against the first prisoner, who was charged with defaming Mr. Barve by publishing the telegram of the 18th December, 1881, containing false imputations. The second charge was against both the prisoners, who were charged with defaming Mr. Barve in sending the first petition to Government; and the third charge concerned the sending the second petition to Government. The imputations contained in them were made against the conduct of Mr. Barve in relation to the Maharajah, in his capacity of State Karbaree at Kolhapore. All the charges come under section 499 of the Indian Penal Code, which his Lordship read. Together with the exceptions to the section. The first question the jury would have to consider was whether the defamation was published in Bombay. His Lordship told the jury what in the language of the Penal Code publication meant. If the imputations made regarding the behaviour of a minister towards his prince were true, his Lordship would tell the jury that they might be taken as made for the public good, and that as such they were not defamatory within the meaning of the section. Now, according to the law as administered at the Presidency, good faith was to be presumed unless the contrary was proved. The law might be different in the mofussil; with that the jury had nothing to do. The first charge was against the first prisoner. (Reads the telegram sent by the prisoner.) It stated that information in the possession of the first prisoner made the cause of the Maharajah's madness clear. The question was whether the telegram was published in Bombay. Looking to the circumstances of the case, his Lordship had no doubt that the telegram was published in Bombay. The second charge related to the first petition sent to Government by the two accused. (Reads the petition.) The petition referred to the three alleged forged letters which the petitioners stated were in the handwriting of Mr. Barve, and that they were prepared to prove it to be Mr. Barve's. The imputations were to the effect that, having entertained suspicions regarding the Maharajah's madness, they had made inquiries, and were now in possession of correspondence which explained the cause of the madness. The correspondence consisted of the three letters alleged to be in the handwriting of Mr. Barve, which his Lordship read. It must be taken that both the petitions were published in Bombay, or that neither was. If it was the intention of the accused in sending those petitions to the Bombay Secretariate that they should be opened and read in Bombay, then they must be taken as published in Bombay. The next question would be whether the imputations made against Mr. Barve were true; and the jury would have to consider whether the letters were genuine. It was important to consider what was Mr. Barve's general conduct as State Karbaree. It would also be important to consider, indeed the whole thing was mixed up with the question, whether the Maharajah was mad. The earliest information was contained in a letter from Colonel Schneider which his Lordship read, and in which the Maharajah's conduct was described as obstinate. Mr. Moduk's letter from the Kajkoomar College referred to the delusions under which the Maharajah was said to labour. He was said to be childish beyond his years. Those letters showed that the Maharajah's mental state was fluctuating. The Maharajah afterwards came to Bombay, when he was placed under the treatment of an experienced medical gentleman, Dr. Murphy. He, in conjunction with others, reported to Government that the Maharajah was suffering from melancholia. (Reads from Dr. Murphy's evidence.) Another report was also sent by Dr. Murphy, Dr. Beatty, and Dr. Cook, stating that the Maharajah was getting more and more excited, and recommending that the servants should be removed, including Mr. Barve, in order that the Maharajah might be cut off from all former associations. Another report on the state of the Maharajah's mind (which his Lordship read) stated that he was suffering from dementia, and described how his mental state had been changing during the eighteen months past. Dr. Murphy, in his final report, and also in his evidence before the court, stated that he had no suspicion against Mr. Barve, who, he said, was anxious for the Maharajah's recovery. Then Mr. Cox said with regard to Mr. Barve that he treated the Maharajah with the decorum due to his rank, and that the Maharajah liked Barve. Both Mr. Cox and Private Green denied that there was any conspiracy to drive the Maharajah mad or to get rid of him by poison. Dr. Beatty was called; and, after verifying his reports, he said that he saw nothing in Mr. Barve's treatment of the Maharajah to lend him to a suspicion against him. Mr. Barve was relieved of attendance upon the Maharajah with several others, only for the purpose of removing the Maharajah from all former associations. The medical gentlemen said that they had no suspicions against Mr. Barve regarding his conduct towards the Maharajah. The reports against Mr. Barve arose from two circumstances, one being that he was relieved from attendance on the Maharajah, and the other that since his removal the Maharajah's state was said to have improved. It was, said his Lordship, for the jury to say whether the improvement was due to Mr. Barve's removal, or to the removal of all the old attendants, including Mr. Barve. The evidence showed that there were many fluctuations in the Maharajah's state. It was for the jury to form their own conclusion whether Mr. Barve had anything to do with the changes for the worse that occurred in the Maharajah's condition. It was for the jury to say whether there was anything to show that Mr. Barve was conspiring with Mr. Cox and others to injure the Maharajah, or whether the Maharajah's insanity was brought about by a hereditary predisposition, and a degrading habit regarding which there was ample evidence. It was alleged that both Dinker Rao and Radhabai were actuated by ill-feeling against Mr. Barve for having, as they supposed, deprived them of inam land and separated them from their son; and that that ill-feeling found vent in the proceedings taken by the accused to discredit Mr. Barve. On the other hand, it was alleged to be the object of the State Karbaree to arrest the Maharajah from the proper line on the plea of insanity, and by placing a minor thereon to continue to retain in his own hands the high authority which he had hitherto exercised in the Kolhapore State. With reference to the three alleged forged letters, his Lordship said it was singular that a portion of a passage in two of the letters, written at long intervals of time from each other, was almost precisely similar. That might be said to be unfortunate for the prosecution if either of the letters had been fabricated from originals. If that was so, it was an injudi[illegible]e step on the part of those who fabricated th[illegible]rs, for the similarity was almost sure of detec[illegible]. On the other hand, it might be said that some [illegible]points were likely to be lost sight of by criminals, or else crime would never be detected. It was for the jury to form their own conclusion upon the evidence. With regard to the evidence of the experts, his Lordship told the jury that such evidence in this country should be received with caution. It should not be rejected altogether, but it should be used to guide or to confirm the conclusions of the jurors themselves. With regard to Mr. Murphy's letter to Limbaye in Bombay touching the hoondie for Rs. 5,000, his Lordship said not a question had been asked to the medical gentlemen who appeared in court whether any money had been offered them. The jury might at once that circumstance to test the veracity of the letter. On the other hand, it might be urged that only Mr. Barve or someone in his confidence could know of such private matters as those mentioned in the letter. There were some matters connected with the Durbar which would be generally known at Kolhapore, such as the whereabouts of the Political Agent, &c., and it was for the jury to consider whether the letter to Limbaye about the Rs. 5,000, and the subsequent letter about the Rs. 1,100 and odd, were genuine or not. Waman Ranade was an interested witness, being himself the accused in another defamation case, the two Defamation Cases, the result of which would much depend upon the result of this case; and his evidence must be received with caution. With the same caution must be received the evidence of other witnesses for the defence for it was alleged for the prosecution that some of them were persons with grievances against Mr. Barve. There was one thing regarding the genuineness or otherwise of one of the suspected letters which his Lordship said he forgot to notice. It was that, in one of the letters, the name of Mr. Cox was written in Maratha as "Cock," and the name of Private Green as "Gree." Mr. Barve swore he did not write the letter, and he alluded to the improbability of his making mistakes in the spelling of the two names. It was for the jury to consider whether a man in the position of Mr. Barve was likely to make those mistakes. There was, his Lordship said, no other evidence than the handwritten or contradict this part of Mr. Barve's evidence. Coming to the question of good faith, his Lordship said that, if the prisoners, having those letters in their possession, did not use due care and attention to verify that they were in the handwriting of Mr. Barve, it would be evidence of want of good faith. It was shown that the first prisoner had a strong prejudice against Mr. Barve when he imputed to Mr. Barve that he was the cause of the Maharajah's madness. The prisoner was, however, to be given credit for taking great interest in the affairs of the Kolhapore State, but that circumstance, his Lordship remarked, did not entitle him to make unfounded imputations. The first prisoner, it appeared, had been to Venayek Kalay, who told him that the handwriting of the notes was Mr. Barve's. It was for the jury to judge whether the prisoner could rely on the evidence of the boy. The Maharajah's madness, they had made inquiries, and were now in possession of correspondence which explained the cause of the madness. The correspondence consisted of the three letters alleged to be in the handwriting of Mr. Barve, which his Lordship read. It must be taken that both the petitions were published in Bombay, or that neither was. If it was the intention of the accused in sending those petitions to the Bombay Secretariate that they should be opened and read in Bombay, then they must be taken as published in Bombay. The next question would be whether the imputations made against Mr. Barve were true; and the jury would have to consider whether the letters were genuine. It was important to consider what was Mr. Barve's general conduct as State Karbaree. It would also be important to consider, indeed the whole thing was mixed up with the question, whether the Maharajah was mad. The earliest information was contained in a letter from Colonel Schneider which his Lordship read, and in which the Maharajah's conduct was described as obstinate. Mr. Moduk's letter from the Kajkoomar College referred to the delusions under which the Maharajah was said to labour. He was said to be childish beyond his years. Those letters showed that the Maharajah's mental state was fluctuating. The Maharajah afterwards came to Bombay, when he was placed under the treatment of an experienced medical gentleman, Dr. Murphy. He, in conjunction with others, reported to Government that the Maharajah was suffering from melancholia. (Reads from Dr. Murphy's evidence.) Another report was also sent by Dr. Murphy, Dr. Beatty, and Dr. Cook, stating that the Maharajah was getting more and more excited, and recommending that the servants should be removed, including Mr. Barve, in order that the Maharajah might be cut off from all former associations. I have not set on one side of the account the satisfaction to be derived from administering a sound thrashing to a vile traducer, or on the other the mental torment of being subjected systematically to foul calumnies, and the uncertainty of getting at law, as sometimes administered, adequate, or any, redress.

II.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—Allow me to point out one or two misconceptions in the letters which you publish to-day with regard to th[illegible]e Thing *Satya Mitra*. First, as [illegible]" which greeted the culp[illegible]lock. It would be a libel [illegible]e to say that any respectable portion of the community ever sided or sympathised with the convicted Editor. The "mob" that cheered him was composed of about a dozen of Mr. Kaikhosro Kabraji's enemies; and it is undoubted that the complainant in this case has by his strong and fearless writings made many enemies who had hitherto backed and supported the accused in the publication and defence of the calumnies.

Then with regard to the "legal difficulties" suggested by your correspondent "Lex," let me assure you and the public that no such difficulties surrounded the case; and the magistrate himself steered clear of all difficulties when he convicted the accused on the very ground raised by his counsel, viz., that the libels were not levelled against Mr. Kaikhosro, and that the lady concerned did not prosecute. "The defendant," says "Lex," "could scarcely be dealt with for libelling one who did not prosecute;" but the magistrate has very properly ruled quite the other way by punishing the defendant particularly on this very charge for libelling the complainant, to whom the defamations mainly applied, and for malice to whom his unoffending daughter was so cruelly victimised. This excuse, therefore, set up by "Lex" in justification of the fine imposed by the magistrate, falls to the ground.

Coming to the fine itself, "Lex" would be right in calling it "smart" if the money had come out of the pocket of the accused, and if he had thus personally felt the smart of a "smart fine." But it was seen by everyone present in court that the fine was immediately paid by others for him, exactly as was the case with his law expenses in the suit. And you, Sir, said very aptly, it is the prosecutor who is really fined in the present case. He is poorer by a few thousands, every pie of which he has spent out of his own pocket.

And, lastly, a word about the so-called "opposition to any social reform" amongst the Parsees. It was clearly brought out in evidence in this long trial that no opposition worth considering exists in the Parsee community to the reforms advocated by the complainant. Every witness has emphatically denied the defendant's claim to be considered as an advocate of orthodoxy among Parsees. It is a well-known fact that the most orthodox Parsee families are now following up the female reforms advocated by Mr. Kaikhosro and his predecessors in the *Rast Goftar*, and that the talk of any widespread opposition [illegible] them is a mere after-thought, invented to excite the defendant from the consequences of his [illegible] attacks on the complainant and his family.

CURE OF RHEUMATISM AND SCORBUTIC ERUPTION.

The Elms, North Cheam Surrey, S., 4th March 1875.

"SIR,—I had been suffering from rheumatism for several years, together with scorbutic eruption of the skin, of a local nature, about the size of the palm of the hand, and was induced to try your Blood Mixture in consequence of two gentlemen in my neighbourhood having been cured of obstinate sore on the body. After taking two bottles I became much better, and continued it up to the tenth bottle, when I found the rheumatism had left me, and my arm was healed. I consider it a most valuable medicine.

"You are at liberty to use this letter in any way you think proper, for the benefit of others.

"Faithfully yours

H. H. THE NIZAM'S STATE RAILWAY.

ADVERTISING AT RAILWAY STATIONS.

THE PROPRIETOR of the *Bombay Gazette* Press, having leased from the NIZAM'S STATE RAILWAY Company the exclusive right of advertising at all the Railway Stations belonging to the Company, is prepared to contract with parties desirous of posting notices or advertisements on the lines.

The Cantonment of SECUNDRABAD, as is well-known, contains the largest military garrison in India—a garrison comprising over 5,000 British and native troops. Contiguous to it is the Cantonment of BOLARUM garrisoned by two regiments and one Battery of the Hydrabad Contingent, all officered by Europeans. South of Secundrabad, about 4 miles, are the suburbs of Hydrabad, containing the Nizam's regular troops, about 5,000 in number, officered mostly by Europeans—besides a large civil population. It would manifestly be advantageous to firms to advertise at the stations on the above railway, the most important of which are SECUNDRABAD, HYDRABAD, GANGAWARUM and TANDUR.

The announcements may be in English or in any of the NATIVE LANGUAGES.

The advantages which Railway Stations present as a means of bringing intimations of all kinds before the public have been demonstrated in England by the extensive use which is made by Advertisers, of every station, great and small, along every one in the United Kingdom.

INSURANCE COMPANIES, SHIPPING COMPANIES HOTELKEEPERS, MERCHANTS, TRADERS and others who wish to force their business on the notice of the public, all alike value the privilege of *Railway Station Advertising.*

There is no reason why the privilege should not be also specially valuable to Advertisers in India. Looking to the great and increasing number of Native Railway Passengers on the two trunk lines of Western India, Native Merchants, Traders, &c., seeing that they have the privilege of advertising in their own language, would find the publication of their announcements at Railway Station an infallible means of extending their business.

Advertisers can select the Stations, at which they wish their Placards posted, and may advertise for any period that may be agreed on. The charges have been fixed on an extremely *moderate scale* to encourage Advertisers to make a liberal use of the new means now offered of making announcements known to the public.

Placards, according to the taste of Advertisers may be printed at moderate charges in ENGLISH or any of the NATIVE LANGUAGES at the *Bombay Gazette* Press. Estimates on application.

RATES.

Boards not exceeding 2 feet long and 2 feet broad Rs. 2 per month. For every additional square foot annas 8.

Thus a firm exhibiting a board, say 4 square feet will have the advantage of having their business advertisement read by thousands of Passengers on one station platform for the trifling monthly expenditure of Rs. 2. Parties advertising on six Stations or more will be allowed a discount of ten per cent.; on twelve Stations or more twenty-five per cent.

The boards to be delivered at the *Bombay Gazette* Office, whence they will be sent by the Lessee to the curious stations selected by the Advertiser. In the event of the contract terminating, the boards will be brought back to Bombay at the expense and risk of the Advertiser.

Special arrangements for long periods.

For further particulars apply to the Manager *Bombay Gazette* Office, Rampart Row, Fort.

CUSTOM HOUSE FORMS.

THE COLLECTOR of CUSTOMS, Bombay has recently issued an order that Manifest and other Forms now in use in the Departments should be printed on HOWARD AND JONE'S CREAM WOVE PAPER. Mercantile firms, pass-note writers and shippers are hereby informed that the undermentioned forms, printed at the *Bombay Gazette* Steam Press, will be sold at the Custom House and at the Carnac-bunder. Orders for large numbers should be sent to this office.
